Training Services Offered

1. Artificial Intelligence and Cloud

- Overview of Artificial Intelligence and GenAI – 0.5 day
- Workshop on Genai and its application – 4 days

2. Modern AI Stack on Cloud and deployments

- Introduction, build and deploy modern AI models on Cloud (AWS/ Azure/ GCP) – 2 to 3 days

3. Data Science & Analytics

- Overview of Data Science & Analytics – 0.5 day
- Certified Analytics Professional in Data Science - 10 weeks (2 days per week)

4. Data Project Management, Software Engineering and Agile Methodologies

- Software Development Life Cycle, Project Management, Software Architecture and Design Patterns - 1 to 5 day
- Scrum Master Certification Preparation, Agile Project Management Tools and Techniques - 1 to 5 days

5. Information technology and software development related Handson training like

- Programming languages like Javascript, Python, TypeScript, C++, Kotlin, Flutter - 3 to 5
- Web/Mobile Development: React.js , Angular, Django/ Flask, Spring Boot (Java), ASP.NET   (C#) etc. - 3 to 5 days

6. Cybersecurity

- Workshop on Security in GenAI and AI applications – 3 to 5 days
- Applied Cryptography and Cybersecurity Essentials - 3 days

7. Process Excellence

- Principles of Process Improvement - 1 day
- Process Excellence Certifications in Six Sigma (YB, GB, BB) - 1 to 5 days

Influence on organizations and learners

His projects have significantly improved operational efficiencies with savings in excess of and have educated in countless learners in practical AI applications.

Real-world applications of AI and Data Science

Dr. Naulia's work showcases real-world applications that bridge the gap between

theoretical knowledge and practice. These Projects are available on request.
